

NUAS joint conference 2015:

CO-CREATING NEW LEARNING ENVIRONMENTS – COLLABORATION ACROSS EXPERTISE

AARHUS 18-20 NOVEMBER 2015

May 2015

For the first time in NUAS history, we are bringing together four areas of expertise:

- **Student Administration and Career Counselling and Guidance**
- **Facilities and Environment**
- **Information Technology**
- **Library Service**

In recent time, the university sector is experiencing great changes in the shape of reforms, reorganizations and new types of students with increasing demands for new study- and learning environments as a consequence. What are the needs and opportunities of the future and which solutions are at hand? The conference will try to uncover these interdisciplinary questions.

The conference will consist of keynotes, workshops and mini lectures and takes place at Aarhus University from 18 to 20 November 2015.

Presentations will be given in Scandinavian languages and English.

Book the dates now! Detailed information about the programme and registration will be available from 8 June 2015 at nuas15.au.dk.

The conference is organized by the four NUAS planning groups from Student Administration and Career Counselling and Guidance, Facilities and Environment, Information Technology and Library Service.

AARHUS

In the heart of Jutland, situated on the Eastern coast, you will find Aarhus, the capital of Jutland and Denmark's second largest city with a population of approximately 285,000 inhabitants. The culture is lively and young mainly due to the city's large student population (approx. 44,500 at Aarhus University). In 2013, Aarhus University was awarded by **Huffington Post** as one of the 15 most beautiful campuses in the world.
